Logistics

The program is **free** and no advance signup is required; all parents and guardians of Splash students are welcome to attend. If you are able, we suggest a \$5 donation to help cover our expenses and continue to spread Splash across the country.

The program will be located on the first and third floors of the Tang Building of MIT Sloan, Building E51.

The program is being run by Learning Unlimited, a startup nonprofit organization founded by student alumni leaders of Splash programs everywhere. We are leading a movement of university students teaching pre-college students about everything and anything.

The program will be located on the first and third floors of the Tang Building of MIT Sloan, Building E51.

Because E51 (circled) is far from the main area of Splash, we will lead groups from the lobby of Building 6 (star). Groups depart promptly at 9:15am, 10:30am, 2:15pm, and 3:15pm. You may also go to E51 directly at any time.
